

Bridge Modernization

East Hampton

Daytime

Effective:

**Monday, July 8, 2019 -
Friday, September 27, 2019**

Road Closures

Bridge Foundation Work Commences

What's happening?

Beginning on Monday, July 8, and continuing through Friday, September 27, the LIRR will be installing new bridge foundations for the modernization of the North Main Street and Accabonac Road Bridges. The new bridges will increase vertical clearance above the roadway (from 11 feet to 14 feet), improving safety and greatly reducing the risk of vehicular strikes to the bridge. Accommodating this work will require periodic road closures along Hook Mill Road between North Main Street and Accabonac Road.

Road Closures/Traffic Impacts

- Hook Mill Road will be closed periodically between 7:00 AM and 5:00 PM from Monday, July 8 through Friday, Sept 27.

We regret any inconvenience our East Hampton neighbors experience while work is underway. We will make every effort to limit any disturbance to the surrounding community and complete this project in the shortest timeframe possible.

For questions or concerns, please contact Vanessa Lockel of the LIRR's Government and Community Affairs Department at vlockel@lirr.org or at 718-558-7991.
